

Hefring ehf. Privacy Policy

General

Hefring ehf. is concerned about the privacy of individuals and takes privacy very seriously. The company strongly emphasizes that the processing of personal data is always in accordance with the applicable privacy laws. This notice states what personal data the company collects in relation to its operations and for what purpose. Here you can find information about other recipients of the information and for how long we keep the information.

You can also find information on the basis on which Hefring ehf. collects personal data, what rights individuals have, and further important information related to the Act no. 90/2018 on Data Protection and the Processing of Personal Data.

What is personal data and processing of personal data?

Personal data is information that relates to an identified or identifiable individual, such as name, ID number, address, email address, telephone number, finances, health, IP address and more. The processing of personal data means all processing and use of personal data such as collection, registration, preservation, alteration or deletion.

There are "special categories" of more sensitive personal data which are more private in nature and therefore require a higher level of protection, such as genetic data, biometric data, information about sex life or sexual orientation, race or ethnic origin, political opinions, religious or philosophical beliefs, trade union membership and health.

The processing of personal data refers to all processing and use of personal information such as collection, registration, storage, modification or deletion.

How does Hefring ehf. process personal data?

Processing of personal data is carried out on a legitimate basis and in accordance with the Privacy Act and the processing of personal data no. 90/2018.

The company ensures that the following principles are adhered to:

- 1) that personal information is processed fairly.
- 2) that personal information is only collected for a clear purpose.
- 3) that no more personal information is collected than is necessary.
- 4) ensure that your personal information is accurate and updated when necessary.
- 5) that personal information will not be kept longer than is necessary.
- 6) ensure the security of personal information with appropriate security measures.
